PROFESSIONAL SUMMARY

Motivated and detail-oriented aspiring software developer with practical experience building web-based programming projects using HTML, CSS, and JavaScript, with additional programming knowledge in Python. Strong interest in software development, web development, computer systems, problem-solving, and technology.

Experienced in creating functional websites and applications, developing page layouts, implementing basic JavaScript functionality, and using programming concepts such as functions and conditional statements. Also possesses practical experience providing basic computer support, installing and configuring software, managing digital records, typing and editing documents, and assisting users with common hardware and software issues.

Familiar with Visual Studio Code, Git, GitHub, Microsoft Office, Microsoft Access, and basic data handling. Eager to develop professional software engineering skills, contribute to technology projects, and gain hands-on experience in a professional software development or IT environment.

TECHNICAL SKILLS

Programming Languages

- Python
- JavaScript

Web Development

- HTML5
- CSS3
- JavaScript
- Responsive Web Design
- Basic Web Interactivity

Development Tools

- Visual Studio Code
- Git
- GitHub

Databases and Data

- Microsoft Access
- Mongo Db
- Basic Data Handling
- Data Organization and Record Management

IT and Computer Support

- Software Installation and Configuration
- Basic Hardware and Software Troubleshooting
- Computer Setup and Maintenance
- Document Typing and Editing
- Photo and Document Editing

Microsoft Office

- Microsoft Word
- Microsoft Excel
- Microsoft Publisher

TECHNICAL PROJECTS

CALCULATOR APPLICATION

Technologies: HTML5, CSS3, JavaScript

- Developed a functional calculator application capable of performing basic mathematical operations and scientific functions.
- Used HTML to structure the calculator interface and CSS to create the visual layout and presentation.
- Implemented JavaScript functionality to process user input and perform calculations.
- Applied conditional statements and functions to organize application logic.
- Practiced programming logic, user interaction, debugging, and basic front-end development.

MUSIC BAND WEBSITE
Technologies: HTML5, CSS3, JavaScript

- Designed and developed a website for a music band using HTML, CSS, and JavaScript.
- Used HTML to structure the website content, sections, lists, and page layout.
- Applied CSS to style the website and improve its visual presentation.
- Implemented basic JavaScript functionality to provide interactive features.
- Practiced organizing web content and creating a structured user-facing website.
- Applied programming concepts including functions and basic data handling.

PERSONAL PORTFOLIO WEBSITE

Technologies: HTML5, CSS3, JavaScript

- Designed and developed a personal portfolio website to showcase personal information, technical skills, projects, and contact details.
- Created structured sections for presenting professional and technical information.
- Used HTML5 to build the page structure and CSS3 to style the website.
- Implemented JavaScript to provide basic interactive functionality.
- Applied responsive design principles to improve usability across different screen sizes.
- Used the project to strengthen practical front-end development and web design skills.

PROFESSIONAL EXPERIENCE

INTERNATIONAL YOUTH FELLOWSHIP, THIKA

Institution Administrator
July 2025 - April 2026

- Managed and maintained institutional data and administrative records.
- Assisted with the registration of new students and maintained accurate student information.
- Responded to inquiries from staff, students, and other individuals, providing appropriate information and assistance.
- Supported the institution's marketing and promotional activities to increase awareness of its programs and attract prospective students.
- Assisted in sharing information about available programs, admissions, activities, and institutional opportunities with prospective students.
- Supported the preparation and distribution of promotional and informational materials.
- Assisted with organizing and promoting institutional activities and events.
- Assisted with installing and configuring software on institutional computers.
- Supported staff and users with basic computer-related tasks and common software issues.
- Worked with staff members to support smooth day-to-day institutional operations.

JOMO KENYATTA UNIVERSITY OF AGRICULTURE AND TECHNOLOGY (JKUAT)

Cyber Attendant
April 2026 - June 2026

- Provided computer and document-related services to students and other users.
- Printed and photocopied academic and administrative documents.
- Typed and formatted documents according to user requirements.
- Edited photos and documents using available computer software.
- Assisted with installation and configuration of software on computers.
- Provided basic technical assistance to students experiencing common hardware and software issues.
- Helped users troubleshoot basic computer-related problems and supported them in completing their tasks.
- Maintained an organized and functional computer-service environment.
- Communicated with users to understand their technical and document-related needs.
- Developed practical experience in user support, computer applications, software configuration, and basic troubleshooting.

EDUCATION

GACHORORO SECONDARY SCHOOL, KENYA

Kenya Certificate of Secondary Education (KCSE)
2021 – 2024

INTERNATIONAL YOUTH FELLOWSHIP THIKA (IYF)

COMPUTER PROGRAMMING

Qualification:

- **CERTIFICATE OF COMPLETION**
- **CERTIFICATE OF EXCELLENCE**

SOFT SKILLS

- Problem Solving
- Teamwork and Collaboration
- Adaptability
- Communication
- Attention to Detail
- Willingness to Learn
- Creativity
- Time Management
- User Support
- Ability to Work Independently

ADDITIONAL SKILLS AND INTERESTS

- Fine Art
- Simple Crafting
- Computer Technology
- Web Development
- Software Development
- Programming
- Problem Solving
- Technology and Innovation

CAREER INTERESTS

- Junior Software Development
- Web Development
- Front-End Development
- Software Engineering
- IT Support
- Computer Support
- Technical Support
- Application Development
- Technology Internships
- Graduate Trainee Technology Roles
